

In Recognition of Leadership in the 3D Printing Registry

Among the first 30 contributors to the 3D Printing Registry,
administered jointly by the American College of Radiology®
& the Radiological Society of North America,

**OSF Saint Francis Medical Center
Peoria, Illinois**

Is a leader in providing insight about the ability of 3D printing
to enhance complex surgical procedures and to improve patient care.
The contribution of registry data will help answer key questions
about the technology's benefits and applications.
