Narcotics Anonymous: (Serenity Corner, 601 E. Hickory Street, Streator, IL)
Meetings at 5 p.m. every Tuesday, Thursday, Friday and Saturday. 815-672-7722. www.na.org

North Central Behavioral Health Systems: (111 Spring St., Streator, IL within OSF HealthCare facility)
Provides a broad spectrum of care to the substance use population, to include co-occurring disorders (mental health and substance use). 815-223-0160. www.ncbhs.org

1. *Substance Use Treatment:* We complete a biopsychosocial assessment and utilize the ASAM criteria to establish level of care. We provide Level two treatment (IOP) to all initial client's regardless of the drug of choice due to the evidence based curriculum we currently use "Living in Balance". IOP includes a didactic and processing session to empower client's to establish a recovery program, gain additional support, and develop a relapse prevention plan. Once a client completes IOP, we have level one groups (Outpatient) available in LaSalle and Ottawa. Ottawa has an opiate specific group designed to meet the needs of this population.
2. *Co-occurring Disorders* are treated simultaneously based on the clients' needs and desire. We have the ability to provide limited medication services, community support, case management, therapy, and limited transportation the IOP.

OSF HealthCare Behavioral Health: (1100 E. Norris Dr., Ottawa, IL and 111 Spring St., Streator, IL)
A Behavioral Health Navigator helps assess a patient's need, connects them with services and follows up to make sure everything is going smoothly. If a patient is struggling with things like housing or access to basic needs, the specialist links them to area resources. Locations in Ottawa and Streator offer access to therapists and psychiatrists. The Ottawa location also offers a Partial Hospitalization Program for teens and adults as well as a secure, 22-bed inpatient psychiatric unit. 833-713-7100 or 815-434-4382. www.osfsaintelizabeth.org

1. *SilverCloud:* an online tool designed to provide patients with easy and immediate access to evidence-based, cognitive behavioral therapy programs. The application offers supportive content for a range of mental and behavioral health issues such as depression, anxiety and stress. SilverCloud can be utilized via handheld device, computer or laptop. The application is made to work with and without the assistance of behavioral health supporters at OSF who can monitor progress, provide encouragement and deliver guidance catered to a patient's personal situation.
