# How to Use Library Resources

Part 1: How to Search the CON Library Catalog

Step 1 - Click this link to open the library catalog, Primo VE: https://i-share-sfm.primo.exlibrisgroup.com/discovery/search?vid=01CARLI_SFM:CARLI_SFM&search_scope=NewDiscoveryNetwork

Step 2 - Type the search terms and select "Sort by Date-Newest"

Step 3 - **Select "Version Found" to find the book location.**

Step 4 - Bring the book to the circulation desk and we will check it out.

Part 2 - How to Borrow Books through Interlibrary Loan

Step 1 -To borrow I-Share books from 92 other Illinois academic libraries, use the Library Catalog, Primo VE, and click this link: https://i-share-sfm.primo.exlibrisgroup.com/discovery/search?vid=01CARLI_SFM:CARLI_SFM&search_scope=NewDiscoveryNetwork

Step 2 - Log into Primo VE with your user name and password. Your user name is your individual library bar code number that was issued during student orientation. This bar code has nine characters beginning with the letter D. The password for all accounts is "Ludgera2022" If you lost your bar code number, e-mail the library at conlibrary@osfhealthcare.org to get a new one.

Step 3 - Search for the item you want in the "All I-Share Libraries" drop-down menu, and then click on the title or subject in the results list.

Step 4 - Under the "How to get it" section is a link to open the I-Share request form.

Subject	Lungs -- pathology >
	Lungs -- Pathophysiology >
	Pulmonary function tests >
MESH subjects	Lung Diseases -- physiopathology >
	Respiratory Function Tests >
	Lung -- pathology >
Description	Reflecting the trusted expertise of Dr. John B. West and Dr. Andrew M. Luks, West's Pulmonary Pathophysiology: The Essentials, Tenth Edition offers accessible explanations of disease processes that affect the respiratory system. This best-selling companion to West's Respiratory Physiology: The Essentials, 11th Edition, has served generations of students and practitioners who work with respiratory patients, presenting vital knowledge in a concise, straightforward manner that's easy to understand. Building on this legacy of success, the tenth edition is updated throughout with the latest clinical perspectives, new images, clinical vignettes, and enhanced USMLE-style review questions to help students excel in today's changing healthcare practice.
Contents	Ventilation -- Gas exchange -- Other tests -- Obstructive diseases -- Restrictive diseases -- Pulmonary vascular diseases -- Environmental, occupational, neoplastic, and infectious diseases -- Respiratory failure -- Oxygen therapy -- Mechanical ventilation.
